

DIGITUS 4 Port Gigabit Ethernet PoE+ Extender, 802.3at, 50 W

DN-95125
EAN 4016032445883

Gigabit Ethernet PoE+ Extender, 802.3at 4-port, Power Pins:3/6(+), 1/2(-), 50W

The Digitus® 4-Port Gigabit Repeater supports the latest network cable and network technology to extend your 100m Ethernet signal. The amplifier is powered by PoE (Power over Ethernet), so you do not need any additional power supply unit and can use the device even where there are no power lines or sockets to increase your range significantly. The repeater offers connectivity to up to 4 PoE enabled devices and provides a maximum of 30 watts per port. It is a perfect, cost-effective, and time-saving solution for safety monitoring and network projects.

Extend your PoE Ethernet signal without additional power supply by up to 200 m

- Meets the 802.3af/at PoE standard
- 1-Port 10/100/1000BaseT PoE IN

- 4-Port 10/100/1000BaseT PoE OUT
- PoE current output 48 V direct current, max. 30 W per port
- Maximum power of 50 watts for all connectors at full load
- Store and forward technology
- LED display for network and PoE status
- Operating temperature: -40°C - 75°C
- No additional power supply unit required
- Power supply (input) via pin: 4/5(+), 7/8(-) and 3/6(+), 1/2(-)
- Power supply (output) via pin: 3/6(+), 1/2(-)
- IP30 aluminum housing
- DIN rail (top hat rail) and wall mounting possible
- Industrial usage: no

Package contents

- Gigabit 4-Port PoE+ Repeater
- Quick start guide
