Product Overview

A clear and net cable management is one of the most important aspects for an efficient cabinet build.
The cable management panel from DIGITUS® is equipped with sturdy steel rings for efficient use of large cable quantities. There are brush strips between the steel rings in order to guide cables into the cabinet which can optimize the overall cable management (DN-97668 & DN-97669). The color of the base panel is made from powder coating in grey (RAL 7035) and black (RAL 9005). If necessary, the steel rings can be removed to use the panel flexible according to various applications.
